

Registers of Scotland: Coming to a town near you this autumn

Registers of Scotland is an organisation with centuries of history, but a 21st century mandate to be an effective digital asset for Scotland. We are achieving this through the delivery of both effective land registration and the creation and delivery of innovative new services.

This autumn, Registers of Scotland are touring the country, from Ayr to Zetland (the RoS county designation for Shetland), speaking to you, our customers about the changes within our organisation and the practical ways in which we can work with you to make land registration faster, cheaper and more accessible.

Join us at one of our workshops throughout Scotland to hear from the experts in land and property information, Registers of Scotland.

Our events will offer an opportunity to meet the new Keeper of the Registers of Scotland, Jennifer Henderson, hear an overview of our registration processes, discuss how we are tackling the arrear and see how our new products and services can benefit you and your business.

Registers of Scotland will be hosting workshops at the following locations:
